< **Dashboard**   Guided Project: Exploring Hacker News Posts

LEARN   MISSION REFERENCE

Learn

That's it for the guided steps! Here's a quick summary of what we accomplished in this guided project:

- We set a goal for the project.
- We collected and sorted the data.
- We reformatted and cleaned the data to prepare it for analysis.
- We analyzed the data.

Guided projects can be used to build a portfolio to showcase to potential employers, so we encourage you to keep working on this. Here are some next steps for you to consider:

- Determine if show or ask posts receive more points on average.
- Determine if posts created at a certain time are more likely to receive more points.
- Compare your results to the average number of comments and points other posts receive.

Preparing Jupyter Notebook
